

UC-One Desktop PC Application Quick Setup Guide

Activating your Desktop UC-One Application

Step 1:

Go to website URL:

https://storage.googleapis.com/ucone_saas_and_meet_clients/ucone/win/3.7.2.190/UC-One.bc-uc.win-3.7.2.190.exe

Step 2:

Save File to PC Drive

Select 'Run' when prompted to run this file or cancel

Select language

Select "Next" & "Agree" to navigate to next page as needed

Select Box to integrate Outlook (optional)

Select Install when option appears

Click "Finished" to complete installation and launch UC-One

To launch UC One, you will need your Access Code and personal login credentials.

Enter credentials to load and integrate Desktop App into your profile.

Please email solutions@singlesource.net to request new credentials.
