

Notice Date: February 2013

Regulatory Recovery Surcharge Notice

Beginning with your March Invoice, Single Source will charge a Regulatory Recovery Surcharge as an ongoing monthly charge. The amount of the surcharge is calculated as a percentage of the total monthly recurring charges for impacted services. The surcharge will appear as a new line item on your invoice.

What is a Regulatory Recovery Surcharge?

The Regulatory Recovery Surcharge (RRS) is being implemented to recover SSIS's regulatory compliance and administrative costs. The RRS is not a tax or fee required by any local, state or federal authorities and is not eligible for tax exemption.

Why is the surcharge being assessed now?

Historically, SSIS has absorbed these regulatory-related costs, while many of our peers have passed these costs on to their customers. These regulatory-related costs have continued to increase to the point where it is now necessary for SSIS to recover them. A surcharge of this nature is not unique in the industry and many service providers choose to pass these costs on to their end customer.
